

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

PREFACE.

THE Editor would congratulate the Ayrshire Breeders' Association on its continued prosperity. Nearly one hundred breeders have become members. The present volume contains a much larger number of entries than the last. In the class "tracing directly to importation" the last volume had 241 pages, this volume has 356.

Several new features have been introduced: the necrology of breeders; the death-list of animals; index of all animals recorded in second volume; besides the usual indexes of breeders, owners, and importers. The Editor would ask the co-operation of all the members, by sending him early notice of the decease of breeders, and also of the deaths of animals, so as to make these lists as correct as possible.

Probably, no perfect Herd Book has ever been published. Errors will creep in, unawares, in some form or other. It is no easy matter to arrange several thousand pedigrees with numbers, pass them through the necessary preparatory stages before printing, and keep them perfectly correct.

In the first volume of the "AYRSHIRE RECORD," the Editor said, "It will be my pleasure to receive, at any time, notice of errors which may be discovered in this volume, that they may be corrected hereafter." Acting on this principle laid down, an Errata, and also an Addenda, supplying some information, have been printed.

It has been the intention to record all ancestors not already recorded in last volume, so that the necessary means for tracing pedigrees to importation, or as far back as possible, may be found in the two volumes.

The Editor would direct especial attention to Regulations 3 and 4, page x.

The Association has recently published a pamphlet, giving some information concerning the Ayrshire breed of cattle, with essays read at the annual meeting of the Association of Ayrshire Breeders, in 1878, which it is hoped may prove of value to those interested in breeding.

It is not often that different breeds can be fairly tested on the same feed and under the same conditions. Mr. Libby, of Maine, has exceptional advantages for doing this, as will be seen from statement in pamphlet. The average yield of three of his Ayrshires (not his largest milkers) for two years was 7,332 and 7,462 lbs. respectively. The average yield of three A. J. C. C. Jerseys, for same time, 4,393 and 4,338 lbs. Each lot contained a two-year old heifer.

The demand for Ayrshires has been steady, without excitement, especially among farmers and dairymen. Good sales have been made at fair prices.

It is an interesting and a significant fact, that a herd of Ayrshires, consisting of a bull and six cows, has lately been purchased in this country and sent to the Sapporo Agricultural College, Japan, to be kept and bred there, as illustrating the highest type of the dairy-cow.

CONSTITUTION.

PREAMBLE.

WE, the undersigned, breeders of Ayrshire Cattle, recognizing the importance of a trustworthy Herd Book that shall be accepted as a final authority in all questions of Pedigree, and desiring to secure the co-operation of all who feel an interest in preserving the purity of this stock, do hereby agree to form an Association for the publication of a Herd Book, and for such other purposes as may be conducive to the interests of breeders, and adopt the following Constitution : —

ARTICLE I.

This Association shall be called **THE ASSOCIATION OF AYRSHIRE BREEDERS.**

ARTICLE II.

The members of the Association shall comprise only the original signers of this Constitution, and such other persons as may be admitted, as hereafter provided.

ARTICLE III.

The officers of the Association shall consist of a President, two Vice-Presidents, a Treasurer, a Secretary, and an Executive Committee of five persons, who shall all be elected by ballot, and shall hold office until their successors are elected.

The other officers shall be *ex officio* members of the Executive Committee.

The Treasurer shall present at the annual meeting of the Association a full statement of his accounts, audited by two members of the Association, appointed by the Executive Committee.

The Executive Committee shall, under the general direction of the Association, prescribe the manner in which the business of the Association shall be conducted; shall have general control of all matters pertaining to its interests; shall have authority to appoint an Editor of the Herd Book; and may fill vacancies occurring among the officers. The office of Secretary, Treasurer, and Editor may be filled by the same person.

The Treasurer, Secretary, and Editor shall receive compensation for their services, to be fixed by the Association. The Treasurer shall give such bonds as may be required by the Executive Committee.

ARTICLE IV.

The annual meeting of the Association shall be held on the third Thursday in January of each year, at such place as shall be designated by the Executive Committee (of which notice shall be sent to members at least one month previous), for the discussion of questions of interest to the members, and for the election of officers for the ensuing year.

At all meetings of the Association members may vote in person or by proxy, or they may send their ballots by mail to the Secretary, whose duty shall be to vote the same and to acknowledge their receipt. At least twenty members present, represented by proxy or written ballot, shall be a quorum for transacting business.

ARTICLE V.

Only breeders of Ayrshire Cattle shall be eligible for membership, and members shall be elected at any regular meeting of the Association.

Each applicant for membership shall be recommended by one or more members of the Association, as a trustworthy and careful breeder; and no new member shall be admitted if objected to by any officer of the Association.

The Secretary shall notify the candidate of his rejection, or, in case of his election, that he will be admitted as a member on signing the Constitution and paying the initiation fee.

An applicant who has been rejected shall not be voted on again

until two years from the date of his rejection, unless by the unanimous consent of the officers of the Association.

ARTICLE VI.

Each member shall pay an initiation fee of ten dollars. These fees shall constitute an Association Fund to defray the expense of publishing the Herd Book, and other charges incidental to the organization of the Association and to the transaction of its business.

No officer or member shall be authorized to contract any debt in the name of the Association.

ARTICLE VII.

The Herd Book shall be edited by an Editor appointed for that purpose, under the control and supervision of the Executive Committee, and shall be published only with its official approval.

The charge for entry of the Pedigree of each animal belonging to a member of the Association shall be fixed by the Executive Committee, but shall not exceed one dollar.

Animals not belonging to members of the Association may be entered in the Herd Book upon the payment of twice the amount charged to members.

The Herd Book charges shall be appropriated to the examination and verification of Pedigrees, and the preparation of the Herd Book, which shall be published by the Association, and shall be its property. The price of the Herd Book shall be determined by the Executive Committee. The Editor shall keep on file all documents constituting his authority for Pedigrees, and shall hold them subject to the inspection of any member of the Association, and shall deliver them to his successor in office.

ARTICLE VIII.

Should it occur at any time that any member of the Association shall be charged with wilful misrepresentation in regard to any animal, or with any other act derogatory to the standing of the Association, the Executive Committee shall examine into the matter; and if it shall find there is a foundation for such a charge, the

offending member may be expelled by a vote of two-thirds of the members of the Association, present or represented, at any regular meeting.

ARTICLE IX.

This Constitution may be altered or amended by the Executive Committee, with the written consent of two-thirds of the members of the Association.

Notice of proposed alterations or amendments shall be given in the call for the meeting to act upon the same.

REGULATIONS.

1. Only such animals shall be admitted to the Herd Book as are proved to be either imported from Scotland, or descended from such imported animals, or such as the Executive Committee shall unanimously believe, on evidence, to be of pure Ayrshire stock.

2. All animals recorded shall be divided into two classes: one to include animals tracing directly to importation; the other, animals not tracing to importation, but believed to be pure bred. The numbers given to the one shall be numerical figures; those given to the other shall be Roman capitals.

3. All entries of animals hereafter imported, to be eligible to admission to the Herd Book, must be accompanied by certificates giving statement of breeding and of marks of identification, signed by the breeder, whose character as a breeder shall be endorsed by the Secretary of some Agricultural Society in Scotland.

4. No animal not already named and entered in some Herd Book at this date shall be accepted for entry under a name that has already been offered for entry; also, the affix 1st, 2d, and 3d shall apply only to calves of the cow bearing the name used, not to her grandchildren, nor any other animals.

5. The breeder of an animal shall be considered the one owning the dam at the time of service by the bull.

6. No pedigree will be received for entry from any one except the breeder of the animal offered, unless it is accompanied by a certificate of the breeder, or of his legal representative, endorsing the pedigree. This shall not apply to animals whose breeders are dead, or to animals already imported.

7. All animals sold, in order that their progeny may be registered, must have their successive transfers duly recorded. Records of transfers will be made only on the certificate of the former owner, or of his legal representative.

8. A transfer-book shall be kept by the Editor, in which all changes of ownership shall be recorded.

9. The Editor shall keep a record of the deaths of all animals which may be sent to him. (Breeders are requested to forward the same, stating causes, &c.)

10. These Regulations may be altered, amended, or added to, with the written consent of all officers of the Association.

No. 2*

AYRSHIRE BREEDERS' ASSOCIATION

HERD BOOK.

THE Editor of the AYRSHIRE RECORD is now prepared to receive pedigrees for the second volume, and to give a number to each animal as soon as the pedigree of the same has been examined and approved.

There will be an alphabetical index to the names of all animals recorded in the second volume.

“Every animal will be registered on the merits of its pedigree, without regard to any *previous* record.

“The Herd Book will be divided into two classes: one to include animals tracing directly to importation; the other, animals not tracing to importation, but believed on evidence to be pure bred Ayrshire.

“The fee for membership is ten dollars. Members of the Association pay fifty cents for the entry of each animal. Non-members are charged one dollar. It is requested that the fees be sent with the application; if the entries are not made, the fees will be returned.” A firm may be admitted to membership, but will be entitled to only one vote.

Volume I. is now ready for distribution, and copies can be obtained of the Editor. Price, \$2.00, with postage paid.

Volume II. of the Ayrshire Record will be published as soon as a sufficient number of pedigrees have been received to warrant us in so doing.

* Issued in 1877.

DIRECTIONS FOR MAKING ENTRIES.

1. Blank forms of application for registry will be furnished gratis to all members of the Association. For animals bred in this country, white blanks are used; for those imported, pink blanks. The blanks give all the necessary requirements. The name of vessel in which imported is not absolutely necessary, though to be desired.

- 2. No animal bred in this country will be admitted to entry unless sire and dam are also mentioned; therefore, the sire and dam should not be described on the same sheet with their progeny, only their names given, with reference letters referring to blanks of their own. The whole ancestry must be followed back with a sheet for each animal as far as practicable, and, if possible, to a pink (imported) sheet, or a record in Volume I., Ayrshire Record.

3. To secure the entry of calves imported *in dam*, the certificate from Scotland must give the name of breeder, and, if possible, the name of sire.

4. Hereafter, the *duplication* of names will not be allowed. All changes of ownership must be recorded in the transfer-book, and all *imported* animals, to insure entry, must be accompanied by *certificates* from Scotland. Breeders are requested to be *particular* in sending to the Editor transfers of stock as soon as sales have been made, and also notice of deaths, whenever they occur.

5. Great care will be taken to prevent the admission of incorrect pedigrees; but, should errors be found to exist, the right will be exercised of correcting or condemning all pedigrees affected thereby.

6. For further particulars, see the Constitution and Regulations, which may be had by applying to the Secretary. Blanks can be obtained from, and entries made with, the Editor.

The patrons of our book will confer a great favor by forwarding to us lists of such errors in pedigree, misprints, &c., as may have come to their knowledge in the previous volumes, and thus aid us in our work of reform.

Illustrations of animals will not be accepted for the next volume.

“ We hope that the Ayrshire Breeders throughout the country will feel that it is for their interests to join an association which has for its object the public good, and in whose proceedings they may all have a voice.”

“ Let it be remembered that this is no *private* enterprise ; but an Association fully organized and formed by the Ayrshire Breeders of America for their mutual protection, and for the purpose of recording the pedigrees of their animals in a Herd Book under their own control.”

Fees for membership should be sent to the Treasurer.

J. D. W. FRENCH, *Editor*,

EXPLANATION.

IN numbering the animals which "trace directly to importation," the numbers given in the four volumes of "THE AMERICAN AND CANADIAN HERD BOOK" have been retained. The numbers in brackets are those used in the Canadian Register.

All animals which do "not trace directly to importation" are designated by Roman capitals.

The names are not arranged alphabetically; but an Alphabetical Index to the names of all animals recorded has been added.

In tracing pedigrees to the second and third generations, the same plan has been retained as used in the last volume; for example, see page 1 : —

James Douglas. 1740.

Lillie Douglas is the dam and Fitz James the sire of James Douglas.

Corslet is the dam and McIvor the sire of Lillie Douglas.

Miss Morton is the dam and Ayrshire Lad the sire of McIvor.

Jessie is the dam and Tarbolton the sire of Fitz James.

Bonny Jean is the dam and Baldy the sire of Jessie.

In class "tracing directly to importation," all pedigrees have been traced to the second, and many to the third, generation.
